

# TUNLAND V9

**BUILT FOR, EVERY ROAD.**

## SPECIFICATIONS

### BASIC INFORMATION

|                         |             |
|-------------------------|-------------|
| Drive style             | 4x4         |
| Steering Wheel Position | RHD         |
| Vehicle Model           | G4F0208S010 |

### VEHICLE DIMENSION

|                |      |
|----------------|------|
| Wheelbase (mm) | 3355 |
| Long (mm)      | 5670 |
| Width (mm)     | 2090 |
| Height (mm)    | 1955 |

### COMPLETE VEHICLE MASS PARAMETER

|                                |      |
|--------------------------------|------|
| Vehicle curb weight (Kg)       | 2305 |
| Maximum design total mass (Kg) | 3055 |

### VEHICLE STATUS

|                |              |
|----------------|--------------|
| Body type      | Double row   |
| Container form | Standard box |

### ENGINE

|                  |          |
|------------------|----------|
| Engine model     | PDV1-48V |
| Displacement (L) | 2.0      |
| Max power        | 119      |
| Maximum torque   | 390      |
| Engine brand     | Aucan    |
| Emission         | EURO IV  |

### GEARBOX

|               |     |
|---------------|-----|
| Gearbox model | 8AT |
|---------------|-----|

### SUSPENSION

|                         |                                                             |
|-------------------------|-------------------------------------------------------------|
| Suspension system front | Front double fork arm type structure independent suspension |
| Suspension system rear  | Multi-link intergal bridge -type non-independent suspension |

### TYRE

|               |           |
|---------------|-----------|
| Tyre model    | 265/70R18 |
| Tyre quantity | 4+1       |

### POWER STEERING

|                           |                                 |
|---------------------------|---------------------------------|
| Electronic power steering | 3 Mode - Sports, Comfort, Light |
|---------------------------|---------------------------------|

### FUEL TANK

|                  |     |
|------------------|-----|
| Fuel tank cubage | 76L |
|------------------|-----|

### BRAKE

|                               |                                                                                                                                                                                                                                                                                                            |
|-------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Brake type                    | Front and rear disc brakes                                                                                                                                                                                                                                                                                 |
| Eelectronic stability program | EBD (Electronic Brake Distribution)<br>VDV (Vehicle Dynamic Control)<br>TCS (Traction Control System)<br>HBA (Hydraulic Braking Assist)<br>HHC(Hill Hold Control)<br>HDC (Hill Down Assist Control)<br>HVBB(Hydraulic Vacuum Boost System)<br>BLF (Break Light Flashing)<br>ABS (Anti-lock braking system) |
| Air conditioning system       | PM2.5 system (filter element)                                                                                                                                                                                                                                                                              |
